

S.N.A.P.

Student Nurse Accelerated Program

What is SNAP?

This program is designed to help streamline the process for nursing students to obtain employment as a Multi-Skilled Tech (MST) prior to completing the nursing program.

Why should I consider SNAP?

- Employment opportunity to join the Genesis team of employees committed to providing compassionate, high-quality health care.
- Abbreviated class room orientation time which is less likely to interfere with your nursing school schedule.
- Employment as an MST promotes higher learning as you master tasking and move to the next learning tier of patient care.
- Builds your confidence in patient care skills.
- Trust levels are built between you and other staff prior to your graduation.
- Provides real-life experience you can utilize as a practicing nurse.

What are the requirements for SNAP?

- Proof of successful completion of Nursing Fundamentals.
- Attend clinical skills review scheduled with a Genesis Education Consultant.
- Complete all required Genesis computer-based learning modules.
- Attend the Genesis one-day New Employee Orientation.
- Attend any additional unit-related classes required by your hiring manager.

How do I get into SNAP?
